SURRENDER OF BANDIT ANNOUNCED

Francisco Villa Gives Self Up Unconditionally After All Night Conference

TO RETIRE TO PRIVATE LIFE

American Brewer Held Under Ransom Demand Released; Rejoicing in Mexico.

ENGLAND, July 28.—Francisco Villa, bandit leader, surrendered unconditionally after an all-night conference with General Martinez, commanding the Torreon military zone, according to advices to the Mexican press here. Villa will return to private life, the message says. Much rejoicing throughout Mexico is reported, with celebrations being arranged. Carl Hagelin, American president of a brewery at Salinas, who has been held by Villa for ransom, has been released, the report added. Villa will be restored to full citizenship and will return to Chihuahua, his old home, it is understood. He is also given a yearly allowance by the Mexican government, and his name restored to citizenship and given farming lands.

DISPATCH TROOPS

MEXICALI, July 28.—Three thousand Mexican federal troops are on the way to Lower California, according to information received by Mexican Cantu, governor of the northern district of Lower California. Cantu announced he received the advice from friends in Mexico City. Two thousand soldiers, said to be from the 1st division, are to leave for the state of Sonora today. Another thousand, also Yaguis, are said to be leaving Guaymas today for a point on the Gulf of California. Cantu said he had made a protest to the state of Sonora, provisional president. It was said Cantu has about 500 soldiers at Mexicali. Cantu would offer resistance. When the Alamo was sent from Mexico City recently to relieve Cantu, the latter practically refused to give up the post, and Alamo returned to Mexico City, recommending the dispatch of troops to oust Cantu.

OPEN REBELLION

MEXICO CITY, July 28.—Governor Cantu of Lower California is in open rebellion against the federal government, Gilberto Valenzuela, sub-secretary of the interior said today. The importance of the movement was discounted by Valenzuela, who said the government could handle the situation.

DAVIS OUT FOR COUNTY OFFICE

Would Be Long Term Commissioner; Held Office Before; Pioneer Here

R. F. "Dick" Davis has filed declaration of his candidacy for long term county commissioner on the republican ticket. Mr. Davis is an old resident of Nye county and has at all times been identified with all movements for the benefit of the county. He located in Tonopah in 1906 and has credit for the construction of the first wooden building in the camp. He was elected commissioner in 1912 to fill a vacancy caused by the death of Tim O'Connell. Two years later he was elected to succeed himself for long term commissioner. His work during his incumbency is declared highly to his credit. Mr. Davis has been in business in Tonopah since his arrival here, and for many years was a member of the firm of Lathrop & Davis. At present Mr. Davis has charge of the volunteer firemen's association. He says he is entering the race to win and is successful at the primaries and general election, he will render an honest administration of county affairs, the same as when he held the office.

SPANISH BELT ANNUAL REPORT IS PROMISING

Suggest New Level Be Driven East From Shaft and Below First, Extending West.

DEVELOP UNEXPLORED AREA

Over 6000 Feet of Development Work Has Been Performed Underground.

Report of the annual meeting of the stockholders of the Consolidated Spanish Belt Silver Mining company, held here July 14, was given out today. Directors elected named the following officers for the ensuing year:

James V. Barnd, president and general manager; Henry G. Mohr, vice president; John V. Wilson, secretary; John Hoover, John Siefert and Frank O'Neill, directors.

Operations Report

The report of operations at the mine for the last six months, as presented by E. J. Schrader, superintendent, advised:

"Starting from the San Pedro shaft east there is an ore shoot of undetermined extent length, but which appears to be at least 100 feet long. From the small stope on this shaft approximately \$7000 was shipped by us and a long crosscut was filled with milling ore, the car samples from which assayed from \$19 to as high as \$70 per ton. On this same ore shoot and close to the shaft is the old San Pedro stope. It shows a wide vein of quartz.

"Beyond the mine numbered 8 a fault was encountered before I came to the property. The level then followed a crushed and broken zone for some distance and finally we turned it in a northerly direction. In a distance of about 20 feet in this section we encountered three distinct ore seams from which samples were obtained which ran from \$40 to \$250. The valuable silver mineral appears to be a stannite which is a complex antimonial sulphide, the genesis of which is rather uncertain.

"While these seams are small, it can readily be seen that their commercial value will depend entirely on the silver contained; for instance, one foot of ore averaging \$100 will carry three feet of waste and still make the mass of milling grade.

"For future development I suggest that a new level be driven from the shaft at some point below the first level and that both of these be extended west as that portion has not been explored from the San Pedro, and it must be remembered that with the exception of the small San Pedro stope the past ore production has all been from sections west of the San Pedro shaft.

"The old Ernest workings show ore in places assaying from \$8 to \$30, and it is possible that a considerable tonnage of milling ore can be recovered at a later date. Ore to the value of around \$2500 was shipped from the Barcelona stope."

Kirchen Reports

The report of Charles Kirchen, the consulting engineer of the company, was read, excerpts from which follow:

"In view of the fact that the electric power line to the property will soon be completed and your mill installation is well under way, it is of the utmost importance that the mine be speedily put in such shape to deliver a steady and uninterrupted tonnage of ore to the mill.

"By far the greater development to date has been done in the eastern end of the property opening new as well as known ore shoots and proving by means of your main working tunnel the existence of good ore shoots at this depth, so that until developments in other parts of the property have been made the more advanced stage you will have to depend upon this section to produce the bulk of the necessary tonnage of mill ore."

Much Development

The report of Jules V. Barnd, president and general manager of the company, shows that over 6000 feet of underground development work had already been performed on the property owned by the company. The San Pedro shaft had been sunk to a depth of 296 feet on July 1. It will connect with the lower tunnel level at a depth of 550 feet below the surface.

The 145-foot level of the San Pedro shaft

has been advanced a total distance of 500 feet and is now within 20 feet of the east end line of the property in a very wide body of milling ore containing a number of streaks of high grade.

The company has practically finished the building of a five-mile high tension electric power line connecting with the Manhattan-Tybo line and running five miles to Spanish Belt.

The company is now completing

the erection of a 10-stamp concentrating mill which will have a capacity of 50 tons a day. It is hoped to have this mill in operation during August.

Ore Resources

"It is impossible to state definitely how much ore is in sight in the property owing to the fact that practically all of the 6000 feet of development work so far performed has been done simply to open up the property and not in drifting ore bodies and putting in the necessary raises and crosscuts. The probability is, however, in the west end of the mine between the old tunnel level and the present tunnel level an average of \$20 a ton. There are at least 10,000 tons of probable ore exposed between the Barcelona workings and the old Ernest workings.

POLES FORCED BACK BY STRONG ADVANCE

WHOLE ARMY IN RETREAT FROM ADVANCING TROOPS; CITIES CAPITULATE IN TURN

WARSAW, July 28.—The Polish retreat continues along the entire front, according to the latest news received here. The bolsheviks are now within 10 miles of Bialystok.

CONSTANTINOPLE, July 28.—The bolshevik army, advancing from Baku through Armenia, took Cougha virtually without opposition, as well as Cougha 24 miles southwest. In Baku the bolsheviks are training a large army of Armenian communists to assist in the overthrow of the Armenian republic.

Financial Report

The financial report, submitted by John V. Wilson, secretary-treasurer, shows receipts for 1919 to be \$141,251.89, and disbursements for the same period \$129,788.20. Current assets are \$59,888.24, and fixed assets \$851,618.74, making the total assets \$911,506.98. Current liabilities amount to \$223,450.91. Net worth, including \$800,000 capital stock, is given as \$688,056.07.

MODEL STORE IS INSTALLED HERE

Mine Workers' Mercantile Co. to Be Finest in State; Cuts Living Cost.

The Mine Workers' Mercantile company market, by far the finest of its kind in the state, will be open for business about August 2, according to present plans. The store, the stock of which is subscribed by the miners, all goods are sold at divide districts, is established with the purpose of reducing the cost of living to the men employed in the mines. All goods will be sold at cost. The idea is not a new one; it has been done before, but it is an enlargement upon previous experiments in that the store will be thoroughly modern, conducted according to the code of the best retail establishments, and nothing but the best quality of goods and merchandise will be sold. Similar establishments throughout the state are conducted merely as commissaries, stocks of questionable goods being thrown on the market in a condition and in a manner far from sanitary. It will be the aim of the management of this new Tonopah store to render a first class retail service in every respect.

The new store is being equipped

at an enormous cost. Not the least of its assets will be one of the largest cold storage plants in the state. The entire market, the cases and display windows as well as the storage rooms, will be refrigerated, insurance that all stocks will be kept in the best of condition. The cold storage plant has a capacity for handling a carload of meat and a carload of vegetable. In addition, 600 pounds of ice will be manufactured a day. Only the finest of meats will be handled. It is announced, being secured from the Nevada Packing company of Reno, which maintains a slaughter house which is a model for cleanliness. The new cold storage plant required two railroad cars to transfer it to Tonopah. It is the finest in Nevada.

The stock carried consists of

groceries, meats, work clothes and work shoes. The clothing department will be upstairs. The new store will employ a force of 15 people. O. E. Shinn is the general manager and is daily on the job supervising the installation work.

FORMER SALT LAKE MAYOR IN TROUBLE

SALT LAKE, July 28.—Seventeen complaints charging misappropriation of public funds were filed today against E. Bock, until last week mayor of Salt Lake. Another complaint charges forgery in connection with a city warrant. The district attorney's office said Bock admitted the misappropriations.

THREE DIVORCES

Three divorces were granted in the district court this afternoon, as follows:

Clara M. Haynes vs. George W. Haynes, granted on grounds of cruelty.

John R. Williams vs. Florence Williams, granted on grounds of cruelty.

Glady's Lewis vs. Fred Irving, granted on grounds of desertion.

ENGINEERS TO MEET

PORTLAND, Ore., July 28.—Engineers from many sections of the United States are expected to attend the 1920 convention of the American Society of Civil Engineers to be held here August 10-15. Arthur Powell Davis, chief engineer of the Federal reclamation service, is president.

FLOUR DROPS

MINNEAPOLIS, Minn., July 28.—Reflecting the slump in wheat prices, flour dropped today at all large mills, one reporting a reduction of 25 cents a barrel.

PUBLISHER DEAD

SAN FRANCISCO, July 28.—William Reedy, of St. Louis, publisher of Reedy's Mirror, died here today following a brief illness. Reedy came here to attend the Democratic convention and remained for a visit.

DEVELOP PARK

TACOMA, Wash., July 28.—Further development of Mount Rainier national park near here, is favored by John Barton Payne, secretary of the interior. Secretary Payne recently visited the park and spent a night near snow-capped Mount Rainier.

ANOTHER QUAKE

LOS ANGELES, July 28.—A light earthquake shock was felt here at 11:35 today.

JAPAN OCCUPATION CAUSE OF PROTEST

WASHINGTON, July 28.—A Tokyo dispatch today said a certain government had protested against the Japanese plans for the occupation of Saghalin Siberia. Known reluctance of the United States government to concur in the occupation of Saghalin lead to the belief here that the American government officials would neither confirm or deny it.

MAY CATCH NEVADA POSTAL EMBEZZLER

LOS ANGELES, July 28.—Deputy sheriffs began a search here today for a man believed to be Robert Lyon, former Canadian soldier, who is alleged to have embezzled \$3000 while acting as postmaster at Caliente, Nevada. A passenger on an automobile stage from Bakersfield told the police Lyon was aboard.

PRESENT MONUMENT TO BRITISH PEOPLE

LONDON, July 28.—Elihu Root, former American secretary of state, formally presented to the British people the Saint Gaudens statue of Lincoln in Canning square as a gift from America. Premier Lloyd George abandoned pressing business to deliver the speech of acceptance.

DAIRYMEN ARRESTED ON CITY COMPLAINT

KANSAS CITY, July 28.—Milk deliveries to Kansas City were resumed today under a three-day armistice after suspension for 24 hours because of differences between the four largest dairy companies and city officials over the milk grading ordinance. Heads of the four companies are at liberty today on bond after their arrest yesterday on warrants charging conspiracy to injure public health.

WOMAN ASPHYXIATED; SON IS ALSO KILLED

BURLINGTON, Iowa, July 28.—Mrs. Alfred Miller and 3-year-old son were today found asphyxiated. The woman's ankles and wrists were bound by cloths. The house had been ransacked and there was evidence of a struggle.

VICTOR BERGER TO RUN FOR CONGRESS

MILWAUKEE, Wis., July 28.—Victor Berger, who was twice refused his seat in congress, is again a candidate from the Fifth Wisconsin district. He will be opposed by a republican.

FIGHTER DIES FROM HARD BLOW TO JAW

DETROIT, Mich., July 28.—Jack Folz, 23, Chicago pugilist, died today following a knockout blow struck during a bout here last night with a local fighter.

FISHLAKE WELL BEARS PROMISE

C. D. Crano, well-known oil operator and manager of the West Coast Crude Oil Co. of Fishlake valley, came in last evening and reports that oil is coming up with a heavy flow of gas from the well being bored by the Excelsior Oil company, which has leased the lower McNett ranch in Fishlake valley.

AUSTRALIA PROTESTS ON BISHOP'S ACTIONS

ROME, July 28.—Strong remonstrances from Australia on Archbishop in the United States of Archbishop Daniel Mannix of Melbourne have been received by the archbishop's associates. They do not represent the feeling prevalent in Australia and ask that some tangible public declaration be made in order to protect the loyalty of a large majority of the Australian population.

DENIED NEW TRIAL

FAIRMOUNT, Minn., July 28.—A. J. Jockley, president of the National Nonpartisan league, and Joseph Gilman, former league organizer, today were denied a new trial on charges of conspiracy to encourage disloyalty during the war. They are under a \$5000 bail sentence.

PUBLISHER DEAD

SAN FRANCISCO, July 28.—William Reedy, of St. Louis, publisher of Reedy's Mirror, died here today following a brief illness. Reedy came here to attend the Democratic convention and remained for a visit.

DEVELOP PARK

TACOMA, Wash., July 28.—Further development of Mount Rainier national park near here, is favored by John Barton Payne, secretary of the interior. Secretary Payne recently visited the park and spent a night near snow-capped Mount Rainier.

ANOTHER QUAKE

LOS ANGELES, July 28.—A light earthquake shock was felt here at 11:35 today.

LIPTON PROVES GENUINE SPORT

Resolute to Be Dismantled; Englishman Hides Disappointment By Smile

NEW YORK, July 28.—The Resolute, which decisively defeated the Shamrock IV in the deciding yacht race in defense of America's cup yesterday, probably will not run another race, said H. Parsons, member of the race committee of the New York Yacht club.

The Resolute will be dismantled at Hirschhoff Yards, Bristol, Rhode Island. Sir Thomas Lipton, who hid his bitter disappointment behind his cordial congratulations to the Resolute and crew, saying the better boat won, will leave for a visit in Canada.

M'KNIGHT MADE MOVIE COUNSEL

Local Attorney Tells About Plans of Million Dollar Picture Organization.

William McKnight, local attorney, who was announced yesterday as counsel for the new million dollar motion picture company incorporated at Carson City, today explained, in as large an extent as he is at liberty to do now, the plans of the organization, which will be known as the United Stars Pictures corporation, of which he will be resident agent and legal advisor. He said:

"I am not at liberty to give out much publicity regarding the United Stars Pictures corporation, but I will say I understand this to be a consolidation of certain motion picture interests, some of the largest in this country. I can say, however, that Charles I. Hollis, the international dramatic critic, husband of William Langdon and father of Mildred Manning, both noted actresses, and one of the largest distributors of films in the world, was recently in Tonopah, with other national motion picture people, on matters to this new million dollar concern.

"Possibly I am not divulging a secret when I mention that the party responsible for making Mary Pickford the greatest success she enjoys today is interested in the New York end of this new picture combination."

STUDIO PLAN

When asked what bearing this big corporation might have on the building of a studio in Nevada, Mr. McKnight said:

"Perhaps a studio may be built in the vicinity of Reno. I, of course, would not know all about that part of the business. I understand, however, plans call for the erection of a new and most complete studio which will cost several hundred thousand dollars and if such an institution could be brought to Nevada, it would insure constant and everlasting publicity to the state from no other source possible to conceive of."

BODY IDENTIFIED

NEW YORK, July 28.—Mrs. Leo Trumbull, wife of a Detroit police man, today identified the body of the young woman found in a trunk at an express office here as that of Mrs. Eugene Leroy.
